African safari photos by Charles Weinberg

"We thought this was just a photographic safari. We did not expect to fall in love with the country and it's people.

Ever changing days with professional and informed drivers made each drive a memorable adventure. There just wasn't enough time to take in all of Kenya's beauty and witness the daily struggle for survival.

Paul's ability to communicate in Swahili and his knowledge of the country made him an invaluable resource. We had the luxury of only 3 to a van, so there was always room for our trappings and gave us great mobility to get the best "shots". The lodges were all spectacularly unique and the food was fine.

To say "you must go" sounds trite...rather, " you must give yourself the gift of experiencing Africa with Paul". You will come home changed and homesick to go back. We are, and can't wait to be another of Paul's repeat customers!"
Chuck and Karen W. - Newport Coast, CA.

"Everything in Africa bites, but the safari bug is worst of all."

~ Brian Jackman
