## More Important Safari Information:

We have only three passengers per nine passenger vehicle giving you plenty of space for you and your photo equipment. You can photograph through windows on BOTH sides of the vehicle and also from the top, which pops up to create shade so you are protected from the hot, equatorial sun. Compared to other tours that pack the vans with up to eight people, this is a huge deal! Our African photo safaris are limited to eighteen people, including the leaders.

As we leave the lodges, the vehicles separate and spread out. This allows us to have up to six guides out looking for wildlife. They each have radios to share what they find. This way no one misses out on seeing the wildlife! With six great guides, you can hardly believe all of the wildlife they find. We have trained them to understand lighting, composition and what we are trying to achieve. Our guides are awesome!

Our safaris are designed for the ultimate photographic experience, however please don't be intimidated out enjoying one my photo safaris just because you are not a photographer or you don't use a "great camera." If you enjoy wildlife you will love these safaris and more than likely you'll come home with some great photos too!

## Death Valley Photography Workshop

January 7-11, 2011

You may have heard of an area in Death Valley where large rocks mysteriously move and when doing so leave their trails to prove it in the dried mud pan. I went there October 2009 on a scouting trip and found it to be true and a very fascinating place! It is NOT an urban legend! Let's go!

To make this workshop even more special and because the roads can

be rough, to save wear and tear to your vehicle, I will be renting a van for transporting us during the workshop and even to take us to the Racetrack (weather and road permitting). You are also welcome to drive your own car, should you prefer. We have a group of wonderful people signed up and only have a few more spaces available so contact me immediately to reserve your space and to receive a discounted hotel room rate (only available through Dec. 7th). For information on the Death Valley photography workshop [Click here](#).

Africa is well known for spectacular sunrises and sunsets. Each day we begin our morning game drive before sunrise. On our afternoon game drives, we return to the lodge just after sunset. This gives us the best opportunities to photograph this breathtaking beauty.

Our African photo safaris are the trip of a lifetime! I am so thankful to have been born and grown up in East Africa. Now that I am able to take people with me and share what I know about photography along with my personal experiences of Africa, I am thrilled so many clients return and say to me "that was the best trip I have ever been on" or "thank you for the vacation of a lifetime! I want to go again soon!"

I hope you will be able to join me on an African photo safari soon. It will be your trip of a lifetime! Why not in sign up now?
