Photos Taken By Tour Participants

This month I am sharing photos that were taken by people who went on safari with me in February 2008. It was a great trip with a wonderful group of people. Seven of them have said they want to go back with me in 2010!

Kenya 2008

Kenya, in September, is the ultimate destination for viewing the migration as it crosses the Mara River. There are spaces still available on both of my upcoming safaris to Kenya this September. The parks will not be crowded because the number of tourists has

been considerably lower than normal so I am looking forward to even better photographic opportunities. I will have world famous photographer Jim Zuckerman as my co-leader on the trip starting September 21, 2008. It is a fantastic opportunity because both Jim and I will be photographing along side of you and are happy to share our knowledge of photography. We had such a great photo safari last year that we are excited about returning together again! During the past 30 years Jim has led many photo tours around the world for many big name companies. After our safari last year in September, Jim said it was the best photography tour he had ever been on! We saw so much! Why not consider joining us September 21-October 7, 2008 for your trip of a lifetime!

On safari I am happy to share my photographic knowledge with my clients.
You do not have to be a photographer to go on the trips, however you should
enjoy watching wildlife because that is our main focus.

Important Tour Information

Our tours are limited to 18 people, including the leaders. We have only 3 passengers per 9 passenger vehicle giving us plenty of space for our photo equipment. We can photograph through windows on BOTH sides of the vehicle and also from the top, which pops up to create shade so you are protected from the hot, equatorial sun. Compared to other tours, that pack the vans with up to eight people, this is a huge deal!

As we leave the lodges, the vehicles separate and spread out, so we have six guides out looking for wildlife. They each have radios to let each other know what they find. This way no one misses out on seeing the wildlife and with six great guides, you can hardly believe all of the wildlife they find. Our guides are amazing

Our safaris really are the trip of a lifetime! I can hardly believe how fortunate I was to have been born and grown up in East Africa. Now that I am able to take people with me and share what I know about photography along with my personal experiences of Africa, I am thrilled to have so many clients return and say to me "that was the best trip I have ever been on" or "thank you for the vacation of a lifetime! I want to go again in a year or two!"

Africa is famous for spectacular sunrises and sunsets. Each day our morning game drive begins before sunrise. On our afternoon game drives, we return to the lodge just after sunset. This gives us the best opportunities to photograph this incredible beauty.
