I am sure that after paying all that money and enduring the long flight you would be more than a little disappointed to discover your guide doesn't even speak english!!! Choose your safari company wisely!

This vehicle belonged to one of those OTHER safari companies!  
Our Somak drivers are knowledgeable, well trained, kind, courteous, and fluent in english. They are among the best at finding the wildlife we want to see and photograph!!!

The bird life in Kenya and Tanzania is spectacular. There are around 400 species of birds at each park we visit on safari. Along the shores of Lake Nakuru, in Kenya one can photograph flamingos by the thousand and with many other species as well!

Smaller predators such as Jackels, are fascinating to watch as they skillfully move through the tall grass looking to pounce on rodents and other small game. They are also able scavengers and always on the lookout to steal a free meal or scraps left by larger predators.

**Lodges and camps we use on our Safaris**

**We stay in first class luxury lodges and camps.**

**For information and photos of the lodges and accommodations click here.**

Africa is famous for its spectacular sunrises and sunsets. Each day our morning game drive begins before sunrise and on our afternoon game drives we return to the lodge just after sunset. This gives us the best opportunities to photograph this incredible beauty.
